

WHITE TREES¹

This was a rash endeavor. I was trying to figure out John and William Whites who may have been related to John and Katharine White and their son, Barrett. Since people landed along the coast, I assumed that they moved later, but I didn't check every Parish/County in the area, and of course, Counties divided, so the names change. I didn't name every person, but if they were a John or a William, I tried to provide information about their known relatives, and sometimes I added a name on a whim. Some of this information came from official documents; some information came from books/articles that discussed records. But, some of it was confusing, and so this should be considered to be useful information requiring further investigation.

¹ Arranged alphabetically and then by date of death unless death dates not provided)

² The only known Col White of Hanover Co was William (dec 1790) who was listed on the Hanover Co. Tax Rolls in 1787 and 1788. He had lived in Louisa County, but moved to Hanover Co when he married Elizabeth White.

³ There is some uncertainty about the father of John Price; and the DAR is uncertain about the descendants of John Price because there were several in Virginia. I haven't identified the basis for his Cpt. title. He is listed as a supplier, not a soldier in the Revolutionary War
